

E-Learning Management System

EDPOOL

The Best Online Learning Platform

Transform your learning courses into digital form on a website, so both learners and instructors are able to access the resources via the internet. Instructors can present their ideas in various formats while learners can choose the contents they want to learn.

Organized content

Managing your course content easily. Instructors can create the content and define the minimum score required to pass the test.

Bilingual

Keeping and showing your course contents in Thai and English languages.

Multimedia assets

Both videos and PDF files can be added to your courses. You can create a variety of quizzes, pre-test and post-test in form of multiple choice, checkbox and essay.

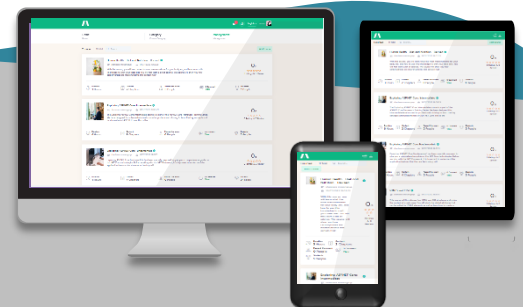

Learning progress

Keep track of participation in the course and progress of learning as well as showing the test score.

E-commerce

Selling your courses on your website and getting payment from the learners who enrolled your courses.

This EDPOOL system is for any organizations and educational institutions who want to transform their teaching and learning styles to conform to the future of learning so that all learners can access to the courses anywhere and anytime.
